

Visio

**Independently
on your way!**

Work in progress for:
O&M for young children

Jolanda Kremer

Occupational Therapist/Early intervention worker

Goal for the future

Visio

Independently on my way

Start share idea: at Visio

Get people to come along

Make a plan, collect tools/ skills...

Go out on adventure...

...remember to be prepared

Start: Royal Dutch Visio

- Number of residents in NL 16.940.000
- Number of Visio clients per year 24.000

Get people to come along

- 14 locations
- 50 early intervention workers

Make a plan: The project

Phase 1: - Collect information, questions, needs and wishes
- Share international experiences

Phase 2: - Develop a method
- Train 10 early intervention workers

Phase 3: - Pilot with control group
- Make method part of regular service

So we went out on an adventure

- Information from colleagues
- Information shared internationally
- Conclusions and next step

But in the mean time

Changes came in

- Finances
- Workload
- Priorities
- Personal choices

Now what?

- Suggestions?
- What should we focus on?
 - *Think big or start small*
 - *Book*
 - *Method*
 - *Training course*
 - *International Network*
- What would you do?

Questions/ Suggestions
